20 September 2026

To whom it may concern

Re: Ms Jane Smith, DOB 03/02/1990

I confirm that Ms Smith is under the care of this clinic and that IVF treatment, including egg collection under sedation on 12/09/2026, was medically necessary.

The treatment is indicated by a diagnosis of bilateral tubal factor infertility, confirmed by hysterosalpingogram in May 2026. In my clinical opinion there is no suitable alternative treatment.

Please contact the clinic if you need any further information.

Yours faithfully,

R. Okafor
Dr Rachel Okafor, MRCOG
